[SIZE 1.5—TOOL SAFE](#) - Internal or External Storage

Tool Box for a real construction site! Big enough to work on with plenty of storage below. There are some extra features such as power lead hole for secure over night recharging and storage buckets on the door. Features: Flat work bench top, front opening doors, 2 swivel and 2 fixed wheels, lifting points, hidden hinges, internal patented locking system and it fits through standard door ways.

SIZE 1500 x 700 x 950mmh

[SIZE 2](#) - Internal or External Storage

Designed for high rises and shopping centres. Wheel this tool cabinet through a standard door way! Fits into an Alimak and makes your life so much easier by not having to move tools up and down or in and out of buildings twice per day. Features: 3 movable shelves, push / pull handles, crane lifting points, 2 secure internal patented locking system, 2 swivel and 2 fixed wheels and over night recharge power lead access.

SIZE 1370 x 700 x 1785mmh

[SIZE 3](#) - Internal or External Storage

For the storage of larger items in buildings. Can be wheeled into areas with double doors. Good for inside shopping centres and in car park areas where space is limited. With crane lugs this unit can be lifted on to the gantry level. The sliding doors allows easy access in tight spaces. Features: Patented security locking system, 2 shelves on back wall, heavy duty wheels - 2 fixed and 2 swivel, sliding door and certified lifting points.

SIZE 2.6 x 1.3 x 1.8mh

[SIZE 4](#) - Internal or External Storage

The perfect unit to fit in between slabs, and into underground car parks. This unit can be man handled into place or crane lifted. Ideal to store larger items like compressor, generator, tools and materials. Features: Patented security locking system, 3 shelves on back wall, hanging hooks, 4 fixed steel wheels, sliding door and certified lifting points.

SIZE 2.7 x 2.0 x 2.075mh

[SIZE 8R](#) - Internal or External Storage

6 Metre container with four foldable racking arms for laying out pipe or creating shelves inside. When not in use, the arms fold back against the wall giving more options than a standard container. Features include 10mm heavy duty steel padlock protector, padbolt on LHS door and 4 foldable racking arms to make shelves. Standard containers also available.

SIZE 6 x 2.4 x 2.6mh
