Leaders in On-Site Security Storage Units for the Construction Industry

SIZE 1.5 TOOL BOX — L 1500 X W 700 X H 900 MM

Tool box for storage of hand tools and small materials on site. Work bench height, with front opening doors and shelf. Comes with power lead access to charge tools securely. A must inside any site office or use it around the site. Comes with wheels and lock ready to go when it arrives on site.

SIZE 6 — L 3.0 X W 2.4 X H 2.6 M

A half container size unit with so much more! Sliding door with patented locking system. Three shelves on back wall, hanging hooks on side wall. On wheels for ease of loading and unloading. Great for storing everything. Especially cable and tools. Crane Certified.

SIZE 2 — CABINET — L 1370 X W 700 X H 1785 MM

Tool and material storage unit. Ideal for storage in high rises building and when you need to wheel your equipment through standard doorways. Three internal shelves and power lead access. Two security locks for added security. Crane Certified.

SIZE 8 CONTAINER — L 6.0 X W 2.4 X H 2.6 M

The faithful 20' Container with added features to survive on a construction site. Heavy duty padlock protector with 10mm steel surround. Security internal pad bolt for the LHS door. Good for equipment and machinery storage. Comes with lock ready to go.

SIZE 3 — L 2.6 X W 1.3 X H 1.8 M

For the storage of larger items indoors or outdoors. Able to be wheeled around site and through double doors. Fits into larger Alimak. Great for when space is at a premium. 3 Shelves along the back wall with hanging hooks on side wall. Space saving sliding door. Crane Certified.

SIZE 8 RACKS — L 6.0 X W 2.4 X H 2.6 M

Like the SIZE 8 but with 4 foldable racking arms on LHS wall designed to either hold conduit or add your own planks and make shelves and desks inside. Vertical storage options means not everything is on the floor! Heavy duty padlock protector.

SIZE 4 — L 2.5 X W 2.0 X H 2.075 M

Internal or External storage. Able to fit into underground car parks. Comes with 3 Shelves hooks and space saving sliding door. Fixed steel wheels so some limited movement available. Can be lifted by forklift. Crane Certified. Patented locking system.

SIZE 9 PIPE CONTAINER — L 6.25 X W 2.4 X H 2.6 M

This container has been extended to store 6 m length of pipe with ease. Entire back wall has been moved back 250 mm. Comes with 4 foldable racking arms. Good for the storage of pipe and timber. Heavy duty padlock protector and lock.

SIZE 5 — L 2.5 X W 2.0 X H 2.15 M

Same as the Size 4, but slightly taller. Great when you storing outside and need the extra head room. Can be lifted by fork. Fit three of these unit in to the space taken up by one container. IDEAL for sites limited by space. Patented locking system.

SIZE 10 CONTAINER — L 6.50 X W 2.4 X H 2.6 M

Larger container when you need to store extra stuff or things that are long. Good for furniture and bulk storage. Has four racking arms on LHS wall. Comes with padlock protector and lock ready to go.
